Bikes Belong Offers Funding for Bicycle Advocacy and Facilities Programs

[Bikes Belong](#), a national coalition of bicycle suppliers and retailers, provides grants to organizations and agencies within the United States that are committed to "putting more people on bicycles more often." Fundable projects include paved bike paths and rail-trails as well as mountain bike trails, bike parks, BMX facilities, and large-scale bicycle advocacy initiatives. The Bikes Belong Grants Program funds projects in the categories of facilities and advocacy. For the facilities category, Bikes Belong will accept applications from nonprofit organizations whose missions are bicycle and/or trail specific. Bikes Belong will also accept applications from public agencies and departments at the national, state, regional, and local levels; however, these municipalities are encouraged to partner with a local bicycle advocacy group that will help develop and advance the project or program. For the advocacy category, Bikes Belong will only fund organizations whose primary mission is bicycle advocacy.

New organizations that are not yet legally nonprofit organizations may submit an application with the assistance of another nonprofit that has agreed to serve as fiscal agent. Bikes Belong will not fund individuals. Because of the program's limited funds, it rarely awards grants to organizations and communities that have received Bikes Belong funding within the last three years.

Applicants can request up to \$10,000 each.

Bikes Belong reviews applications on a quarterly cycle. Applications are only accepted via email. Upcoming application deadlines are August 24, 2009; and November 23, 2009.

[The Fruit Tree Planting Foundation](#) -- Fruit Tree Orchard Grant Overview

The Fruit Tree Planting Foundation (FTPF) is an award-winning international nonprofit charity dedicated to planting fruitful trees and plants to alleviate world hunger, combat global warming, strengthen communities, and improve the surrounding air, soil, and water. FTPF programs strategically donate orchards where the harvest will best serve communities for generations, at places such as community gardens, public schools, city/state parks, low-income neighborhoods, Native American reservations, international hunger relief sites, and animal sanctuaries. FTPF's unique mission, which has been featured in *The Los Angeles Times*, *The New York Times* and *The Today Show*, benefits the environment, human health, and animal welfare—all at once! Google Grants Program

Google Grants is a part of the Google for Nonprofits program. Google for Nonprofits is Google's product offering for the nonprofit sector. As a qualified Google for Nonprofits organization, you will gain access to a variety of different product offerings such as Google Grants.

The Google Grants program empowers over 6,000 organizations to achieve their goals by helping them promote their websites via advertising on Google. Google ads appear when users search on Google. For example when you search for "[world poverty](#)" on Google, text ads related to world poverty appear on the right hand side. When you click on one of the ads, you are brought to the website being advertised.

Organizations that receive a Google Grant are awarded an in-kind online advertising account which can be used in a variety of ways, including general outreach, fundraising activities, and recruitment of volunteers. Google Grants participants have found much success with the program. For example, the US Fund for UNICEF's e-commerce site, Shop UNICEF, experienced a 43 percent increase in sales over the previous year, while CoachArt – supporting children with life-threatening illnesses through art and athletics programs – has seen a 60 to 70 percent increase in volunteers.
